Information Literacy ReDesign:  
Small Pieces Loosely Joined,  
2011-2014

The screenshot shows the 'ResearchGuides.austincc.edu' website. The main navigation menu includes: Getting Started, Res, Goal Setting, Finding Textbooks for Your Courses, Time Management, Study skills, Organizing Tips, Testing Tips, Textbook Tips, Research Success, Writing, Choosing a Topic, Identifying Keywords, Finding Background Information, Evaluating Information, and Finding Books and eBooks. The main content area is titled 'Faculty Teaching Toolkit' and includes sections for 'What to Expect & Order Teaching at ACC', 'Faculty Teaching Toolkit', 'Faculty Teaching Toolkit', 'Faculty Teaching Toolkit', and 'Faculty Teaching Toolkit'.

- ACC students often drop a course when they discover they are not prepared to successfully complete an assignment.
- Familiar with this student paradigm, Library Services worked with the IRT department to create a joint project to develop an assignment calculator.
- The first step was to investigate open source tools to find one that could present motivated students with a step-by-step personalized framework for success on each assignment.

# TIMELINE
